Crowd Sourcing FAQ Project Report

Index

1. Title Page

- Repo name, team list, repo link

2. Executive Summary

3. Introduction

4. System Design / Architecture + Diagrams

Ex: Use-Case diagrams, Flowcharts, Dataflows, etc.

5. Implementation

- 5.1 Tech stack & justification (MongoDB, Express, React, Node)

- 5.2 Module/feature breakdown

6. Feature Spotlight

- Showcase the standout innovations and unique functionalities of your project through concise demonstrations. Each feature should include a brief explanation of its purpose, impact, and real-world usefulness, followed by a short screen-recorded demo in the form of a GIF or a drive link with proper access (“**anyone with the link**” access). The cumulative duration of all demo clips should be strictly **60 seconds**, highlighting the aspects that make your project distinct and technically impressive.

7. Challenges & Limitations

8. Future Enhancements

9. Conclusion
